THE ANATOMY OF CACAO

In 2006 we had a mission, to re-establish a thriving, sustainable cacao economy in Saint Lucia. Seeded, harvested, dried, roasted and transformed; our flourishing cacao estate provides the ingredient that enhances local catches to molten lava chocolate desserts. We make our fine flavour, micro-batch chocolate directly from our estate-grown cacao beans, right here. At Rabot Hotel we believe in doing what we can to protect our planet. All our dishes on the menu are created using predominantly local, high quality meat and vegetables to minimise the need for imported foods, while also supporting our local communities here in Saint Lucia.

Discover the full potential of the cacao bean, shell to nib.

PROJECT CHOCOLAT: THE TREE TO BAR EXPERIENCE

Building on a decade of success, we have transformed our famous Tree to Bar experience across a six-acre site at Rabot Estate in Saint Lucia. Project Chocolat connects ethical cacao-growing with chocolate-lovers in a uniquely immersive agri-tourism experience.

Here, you'll find out how cacao grows. Plunge into the rainforest for a tour of the cacao groves, and learn how to graft a tree before hand-crafting your very own chocolate bar. You will discover cacao cuisine served street-food style, cocktails and more – all enjoyed looking out over a UNESCO World Heritage Site. Finish by treating yourself (or your loved ones) to cacao alcohols and - of course - more chocolate!

Speak to a member of the team to book your tour.

YOU'LL NEVER THINK ABOUT CHOCOLATE THE SAME WAY AGAIN.
